Education

University of Central Florida **Aug. 2024 – Jul. 2027**
B.A. Digital Media – Web and Interactive Media *Orlando, FL*

Experience

UX Designer & Web Developer **Oct. 2025 – Present**
UCF Center for Distributed Learning *Orlando, FL*

- Research, design, test, and implement **accessible, gamified educational experiences** for Materia, supporting over 50K monthly educators and students, as well as internal tools for UCF faculty.
- Translate Figma prototypes into **production-ready, responsive frontend interfaces**, partnering with developers to preserve design fidelity and technical feasibility while intentionally maintaining and promoting accessibility across devices, browsers, and user needs.

Adobe Next Campus Leader **Jul. 2026 – Present**
Adobe *Orlando, FL*

- **Selected to represent Adobe at UCF** through creative-technology programming, peer education, campus partnerships, and design-focused student engagement.

Design Director **Jan. 2025 – Mar. 2026**
Knight Hacks *Orlando, FL*

- Supported planning and execution for **UCF's largest hackathon**, collaborating across technical, operational, and creative teams in a fast-paced environment.
- Directed **visual identity** across digital products, merchandise, event graphics, and participant-facing experiences to maintain cohesive communication.

UX Design & Web Development Intern **Aug. 2025 – Oct. 2025**
C^2 Technologies *Orlando, FL*

- **Designed and developed** interactive, demo-ready web experiences for Adapt2Learn, translating product requirements into responsive interfaces for client showcases and internal presentations.
- Produced branded digital assets and reusable visual deliverables for product demonstrations and showcases, maintaining visual consistency while working within rapid project timelines.

Projects

WattaSave ↗ | *React, Vite, TypeScript, Node.js, Express, PostgreSQL, Prisma* **Jul. 2026**

- Designed detailed, intuitive, and **responsive** onboarding, dashboard, and analytics screens for an energy-optimization application built during a 12-hour hackathon under a sustainability prompt.
- Developed the frontend with **React, Vite, and TypeScript** in a Turborepo monorepo, implementing personalized scheduling, energy insights, and analytics experiences connected to a Node.js and Express API backed by PostgreSQL and Prisma.
- Translated provider data and algorithm-generated recommendations into actionable guidance for cost efficient and sustainable energy consumption through tasteful, intuitive UI, helping the project earn **first place**.

UCFHere ↗ | *Product Redesign, Error Handling, Responsive UI* **Jun. 2026 – Jul. 2026**

- Led the **end-to-end redesign** of UCF's core attendance-management platform, modernizing its QR check-in flow, navigation, attendance records, and responsive student experience.
- Applied **information architecture** and iterative **low- and high-fidelity wireframes and prototypes** to simplify complex attendance workflows and improve clarity across mobile and desktop.
- Conducted **A/B testing** and built a **browser and device error matrix** to evaluate interaction patterns and design recovery flows for camera permissions, failed scans, unsupported browsers, and connectivity issues.

Conduit ↗ | *Electron, OpenCV, EEG, Eye Tracking, ASL* **Feb. 2026**

- Designed and developed an **Electron** accessibility application, building a customizable modal that unified EEG, eye tracking, ASL recognition, and voice controls to make computer use more accessible and adaptable for people with disabilities.
- Prioritized accessible design practices across persistent overlay controls, brainwave visualizations, and gaze-assisted navigation; this user-centered execution helped Conduit earn **2nd Place** in Healthcare at **Georgia Tech**'s Hacklytics.

Skills

Programming: JavaScript, TypeScript, HTML/CSS, React, Next.js, Vite, Node.js, Express
Data & Tools: Git, GitHub, Turborepo, Electron, Tailwind CSS, shadcn/ui, PostgreSQL, Prisma ORM, REST APIs
Product & Design: Figma, UX/UI Design, Research, Information Architecture, A/B Testing, Prototyping, Interaction Design, Design Systems, Accessibility, Responsive Design, Usability Testing, Quality Assurance
